BrightSign®

Content Management

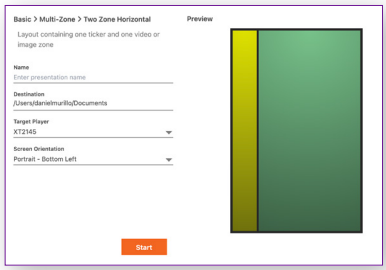

BrightSign® AUTHOR

BrightSign Author is a free local content and publishing tool. Create presentations from a single interface and at no extra cost. Available on PC, Mac, and Chrome, it provides an intuitive, streamlined interface that gets your signage up and running quickly.

Build and Publish Presentations

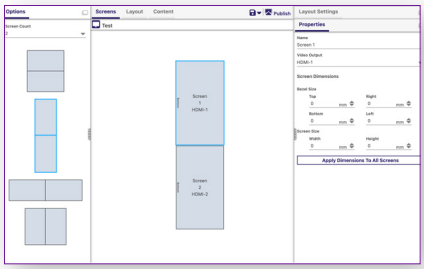

Create and publish simple or complex presentations using all available BrightSign player features, including publishing AI models to BrightSign players, through an intuitive and streamlined authoring interface.

SET UP PRESENTATIONS

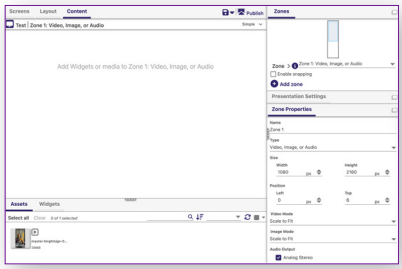

Easily select the player model you want to publish to and choose whether the presentation will consist of one zone or more.

CONFIGURE THE LAYOUT

Select the screen you are going to publish to and set what kind of content you want to display.

ADD AND SET UP ASSETS

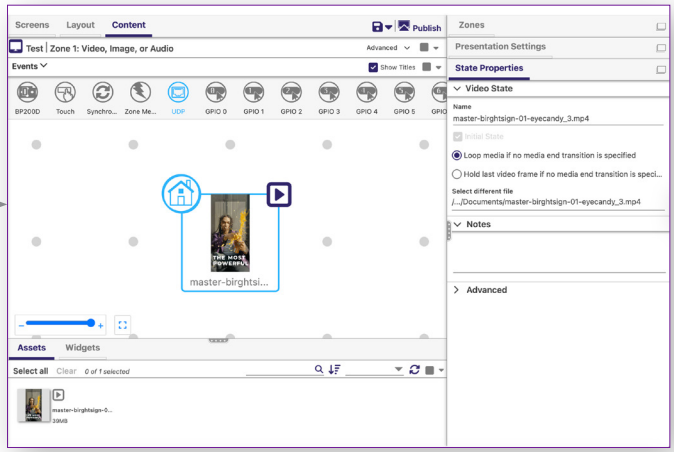

Drag and drop assets into your presentation.

Set up Events

Easily build interactive content into your presentations, with triggers such as time out, touch, User Datagram Protocol (UDP), and more.

Access your Preferred CMS Subscription

Use BrightSign Author Plus or a partner CMS to extend all these features to the cloud and publish your content.
